RISK — Protected Vitosha species

we forage only common edible species; juniper, junipir, thyme, oregano, mountain tea, porcini, rosehip. All under national park rules.

written permit renewed annually

RISK — Bad foraging week

we close the stall. An empty crate rack is part of the promise. Customers respect it.

closed ≈ 4 weeks per year

RISK — Supermarket dried herbs

they sell wholesale from unknown origins. We sell the coordinates of the hillside where each sprig grew.
