97 · FON.FIX

Kreuzberg · Berlin

14 m² · 6 weeks · solo master · phone repair atelier

Quiet mastery.
Broken glass made new.

€49 concept · €149 dossier

A FOURTEEN-SQUARE-METRE STOREFRONT WHERE ONE MASTER REPAIRS ONE PHONE AT A TIME.

No queues. No screens behind the counter. Just the tools, the patience, the glass.

14 M^2 · 6 WEEKS BUILD · €49 CONCEPT · €149 DOSSIER

Phone repair is a trust ritual. Customers bring something intimate — memories, contacts, the small glass screen they touch a hundred times a day. FON.FIX answers with one bench, one master, one hour.

small shop · tight radius · high return

RISKS	IMPACT	LIKELIHOOD	MITIGATION
1. OEM parts shortage (Apple supply constraints)	high	med	Dual-source iFixit + Zettalink distributor; 6-mo stock buffer
2. Key master illness / vacation (solo op)	high	low	4 weeks/year planned closure · pre-announced waitlist window
3. Rising Kreuzberg rent on lease renewal	med	high	5-yr fixed lease signed with rent cap clause
4. Cheap repair chains undercut pricing	med	high	Brand moat: ritual, trust, OEM, 6-mo warranty — not competing on price
5. Liquid damage misdiagnosis / warranty dispute	med	low	Photo-documented intake · clear terms · 15-min triage fee upfront
6. New EU right-to-repair regulation shifts margins	low	med	Compliance audit quarterly; pivot to certified-partner program

mitigated, not ignored

THE MANIFESTO

We believe phones carry our lives.
We believe hands still make better repairs than algorithms.
We believe a fourteen-square-metre shop,
with one bench, one master, and one hour,
is the dignified answer to a broken screen.
We believe in OEM glass, honest prices,
a brush of tea, a six-month warranty,
and the quiet work of a thousand tiny screws.
