## INSTAGRAM + TIKTOK

*warm · expert · no shame*

Weekly Reels showing process (hygiene timelapse, composite artistry) + dr Artēm 90-second answers to common anxieties. Zero whitening-hype, zero before/after boasting. Thin serif captions in Polish + English.

## REFERRAL NETWORK

*earned · personal*

Top 40 Warsaw specialists (orthodontists, maxillofacial, ENT) receive handwritten holiday cards + quarterly dinner. Each new referral's patient gets a thank-you ceramic cup. 60% of new patients from referrals by year 2.

## GOOGLE + LOCAL SEO

*factual · findable*

Google Business profile with 120+ genuine reviews avg 4.9★ by month 12. SEO-optimized for 'stomatolog Mokotów', 'implanty Warszawa premium', 'stomatologia estetyczna centrum'. Transparent PLN pricing on every service page.

## CORPORATE PARTNERSHIPS

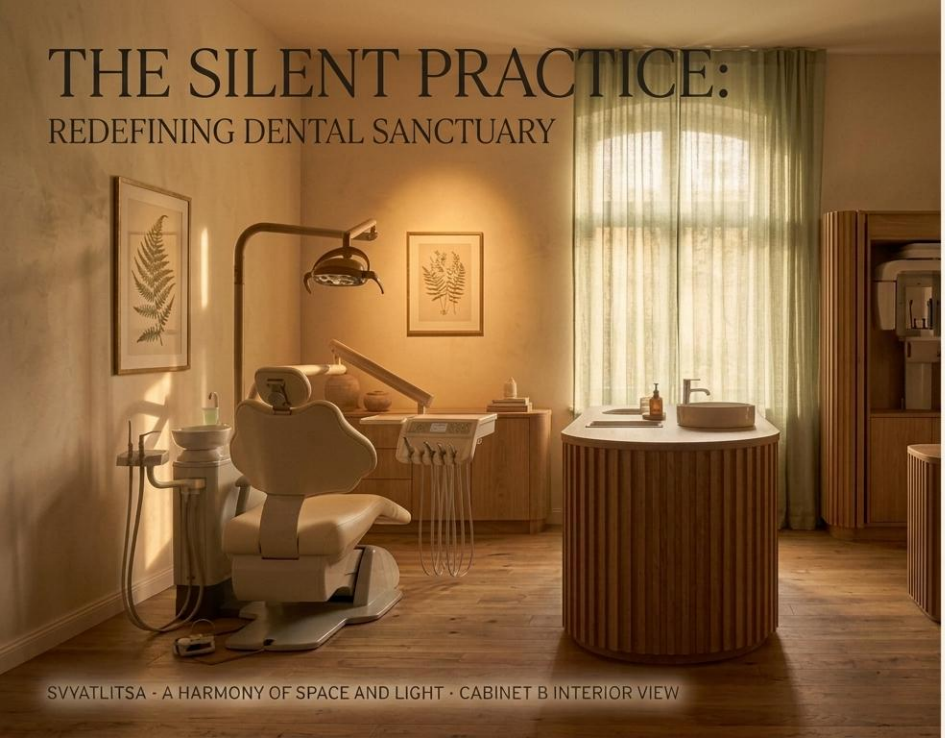
*recurring · premium*

Contracts with 6 nearby offices (legal, arch, fintech) offering employees 15% off + prioritized booking. Mokotowska location = walking distance to clients. €3,200/mo recurring B2B revenue floor.

| | | |
|---|---|---|
| WARSAW DENTAL MARKET SATURATION · PRICE COMPRESSION | → | Differentiate on experience-design (aesthetic space, ritual, emotional warmth) and full-service (one clinic for prophylaxis → implants → aesthetics). Average ticket PLN 680 vs market PLN 380 because patients choose depth over discount. Premium positioning defensible by interior + team continuity. |
| KEY-PERSON RISK · FOUNDER IS LEAD DENTIST | → | Hire second dentist at month 9 (15-month timeline to €250K gross/mo makes this financially supportable). Documented Documented clinical protocols — every procedure has written SOP in brandbook. Associate-path in contract: dr. Artēm's role pivots to founder + implants-only by year 3. |
| ECONOMIC DOWNTURN · DENTAL SEEN AS DISCRETIONARY | → | 50/50 portfolio balance: prophylaxis + therapeutic (recession-(recession-resilient, mostly insurance-covered) = 50%; aesthetic + implants (discretionary) = 50%. In a 2008-style downturn the first half holds. Monthly payment plans for implants (BLIK + Installments by mBank) soften lump-sum barrier. |

# THE SILENT PRACTICE:

## REDEFINING DENTAL SANCTUARY



SVYATLITSA - A HARMONY OF SPACE AND LIGHT · CABINET B INTERIOR VIEW

At SVYATLITSA, we believe a space has a voice. It speaks to the anxiety before an appointment, to the need for human connection, to the value of craftsmanship.

For far too long, dental care has been delivered in sterile boxes under a cold fluorescent gaze.

We choose a different path. A path where light matters as much as *there* the warmth of fluted oak is as essential as a precision scan. Where the air is clean, and the mind is calm.

Cabinet B is our interpretation of a sanctuary, a space designed not for efficient throughput, but for a moment of quiet focus.

This is dentistry as it should be. A harmony of space and light, of technology and care. Dedicated to the whole person, not just the tooth.

This is the new standard of well-being.
