the city brings us the people we want

single-chair format caps daily revenue	→	answer: higher price-per-service, return visits, monthly plans
large-chain competition on price model is the product —	→	answer: our client-per-hour we do not compete on price
master barber dependency · cross-training with Ioana	→	answer: apprentice in year 2 documented cut-maps

A haircut is a private thing. It happens in an hour with a single stranger who soon becomes familiar. We believe in one chair, one conversation, one appointment at a time.
time. Thirty square metres in Cluj-Napoca where the city's professors, architects, and grooms come back for the same hands.
